DELIVERY & EPISIOTOMY INSTRUMENT KIT, MSF (KSURBDEL7-)

The delivery & episiotomy kit contains the basic instruments to perform a delivery and episiotomy. It contains two Kocher forceps to tie up the umbilical cord, one pair of episiotomy scissors (specifically designed for this use) and another pair of scissors for cutting the umbilical cord. Avoid using the same pair of scissors for these two procedures, especially if the mother is suspected of HIV infection. An amniohook is also included in the set.

QUALITY

We do not take any chances when it comes to the quality of the products that we supply, and to safeguarding the health of patients. Imres has implemented an uncompromising set of quality controls. Our extensive database of quality suppliers and product combinations enables us to cater for every medical supplies need that our customers may have.

ONE-STOP-SHOP

While more than 35 years of experience has enabled us to identify the best and most reliable suppliers for each of our products, Imres strives to continuously improve, expand and innovate. We constantly source new products and suppliers. This ensures that we keep our range up to date, and that we consistently provide our customers with the best prices, products and quality.

THE IMRES DIFFERENCE

Over more than **35 years**, Imres has proved that we are a **reliable, efficient and trusted partner** in **healthcare strengthening programmes** in developing countries.

As an organisation, we are big enough to **make a difference**, but small enough to give our customers personal attention, and to care about the difference that we are making in lives and communities, and in our partners' health projects.

We have **offices** in the **Netherlands, Dubai, India, Canada, China** and the **Democratic Republic of Congo**.

Our **production areas** include a **GMP room** for secondary packing and a **Class D clean room** for primary packaging, as well as a **450 m² kit production area**. As a supplier, we do not make promises that we cannot keep. If we commit to a project and specific deliverables, it is because we really can deliver, as promised.

Like the projects that we are **proud** to be part of, Imres has heart. We are good at what we do, but we also feel good about what we do. We feel responsible for our partners' projects until each one ends **successfully**.

Then we move onto our **next challenge**; our next opportunity to turn humanitarian dreams into **concrete solutions** and **decisive action** that saves lives.
