Imres has the ideal medical kit solution for every international relief programme

imres

EXTRACAPSULAR CATARACT EXTRACTION KIT

Imres supplies an excellent quality, complete medical set for manual extracapsular cataract extraction. This kit offers excellent value for money as all the instruments are manufactured from high grade surgical stainless steel, to ensure quality and longevity. At Imres, we believe that high quality medical supplies are essential to improve healthcare and ensure the success of health programmes. It is our mission to constantly source superior quality products that comply with the most stringent standards.

Eye Health

Our range of affordable eye health products is aimed at supporting and advancing eye care programmes around the world.

With more than 35 years of experience, we have the know-how and resources to compose, produce and distribute all types of emergency and medical kits. We have an outstanding track record in customising kits for a wide range of health programmes. Please contact us for more information.

“

According to the World Health Organisation (WHO), cataract is one of the major causes of visual impairment and the leading cause of blindness in the world. The provision of effective and accessible eye care services is key to preventing and controlling visual impairment, including blindness.

CASTROVIEJO CALIPER 20MM STRAIGHT	1
INSTRUMENT STERILIZING CASE, S.S. BOX, WITH 2 SILICONE MATS	1

THE IMRES DIFFERENCE

+ Over more than **35 years**, Imres has proved that we are a **reliable, efficient and trusted partner** in **healthcare strengthening programmes** in developing countries.

+ As an organisation, we are big enough to **make a difference**, but small enough to give our customers personal attention, and to care about the difference that we are making in lives and communities, and in our partners' health projects.

+ We have **offices** in the **Netherlands, Dubai, India, Canada, China** and the **Democratic Republic of Congo**.

+ Our **production areas** include a **GMP room** for secondary packing and a **Class D clean room** for primary packaging, as well as a **450 m² kit production area**. As a supplier, we do not make promises that we cannot keep. If we commit to a project and specific deliverables, it is because we really can deliver, as promised.

+ Like the projects that we are **proud** to be part of, Imres has heart. We are good at what we do, but we also feel good about what we do. We feel responsible for our partners' projects until each one ends **successfully**.

+ Then we move onto our **next challenge**; our next opportunity to turn humanitarian dreams into **concrete solutions** and **decisive action** that saves lives.
