## THE IMRES DIFFERENCE

**+** Over more than **35 years**, Imres has proved that we are a **reliable, efficient and trusted partner** in **healthcare strengthening programmes** in developing countries.

**+** As an organisation, we are big enough to **make a difference**, but small enough to give our customers personal attention, and to care about the difference that we are making in lives and communities, and in our partners' health projects.

**+** We have **offices and facilities** in the **Netherlands, Dubai, India, Canada, China** and the **Democratic Republic of Congo**.

**+** Our **production areas** include a **GMP room** for secondary packing and a **Class D clean room** for primary packaging, as well as a **450 m<sup>2</sup> kit production area**. As a supplier, we do not make promises that we cannot keep. If we commit to a project and specific deliverables, it is because we really can deliver, as promised.

**+** Like the projects that we are **proud** to be part of, Imres has heart. We are good at what we do, but we also feel good about what we do. We feel responsible for our partners' projects until each one ends **successfully**.

**+** Then we move onto our **next challenge**; our next opportunity to turn humanitarian dreams into **concrete solutions** and **decisive action** that saves lives.
